

Cleaning Planner

routines, checklists & chore charts

DAILY • WEEKLY • MONTHLY • SEASONAL • ROOM BY ROOM • DECLUTTER

STARLIT PAGES

How to Use This Planner

- 1 Start small. Print the daily checklist and do only that for one week. Habits stick when the list is short.
- 2 Add the weekly plan: one area per day, about 20 to 30 minutes. Nothing piles up, and weekends stay free.
- 3 Once a month, pick a few tasks from the deep-clean list. You don't need all of them every month.
- 4 Use the room pages to agree on what "clean" means, especially if the whole family helps.
- 5 The chore charts and the 30-day declutter challenge make good fridge pages.
- 6 Everything is undated: start any day, skip a day without guilt, and print fresh pages as often as you like.

Safety first: follow the label on every cleaning product and never mix bleach with ammonia or acids (such as vinegar). Use a ladder safely or ask for help with high places.

US Letter and A4 versions included. For personal use; please do not resell or share the files. (c) 2026 Starlit Pages.
