

Teacher Planner

Undated · any school year

LESSON PLANS · GRADEBOOK · ATTENDANCE · SEATING CHARTS

Name

STARLIT PAGES

How to Use This Planner

- 1 Print the whole planner, or only the pages you need. Every page is undated, so it works for any school year and you can start in any month.
- 2 Fill in the monthly calendars first: holidays, breaks, report-card dates and events. Months run from August to July; skip any you don't need.
- 3 Plan each week on one page: write your subjects or periods in the left column, then a few words for each lesson per day. The To Do box keeps copying and emails out of your head.
- 4 Track grades and attendance on the grid pages. Number your assignments across the top and keep a key at the bottom so the page still makes sense months later.
- 5 Use the parent contact log for every call, email and meeting. A dated record helps at conference time and protects you if a question comes up later.
- 6 Leave the substitute page filled in and clipped at the front: routines, helpers and where things are.

Printing tip: choose "Fit" or "Actual size" in your printer settings. The pages print well in black and white. US Letter and A4 versions are included.

Personal and single-classroom use. Please do not resell or share the files. (c) 2026 Starlit Pages.
