

Budget Planner

Money under control, no spreadsheets needed

12 MONTHLY BUDGETS • EXPENSE LOG • DEBT • SAVINGS

STARLIT PAGES

How to Use This Planner

- 1 At the start of the year, fill in your money goals: what to save, which debts to clear, what to buy.
- 2 At the start of each month, plan the budget: income first, then fixed bills, then savings, and only what is left goes to everyday spending.
- 3 Every evening, log what you spent. Two minutes. After a month you will see where the money goes.
- 4 At the end of the month, copy the totals to the yearly overview. Plan vs. actual shows what to adjust.
- 5 Want something big? Add it to the 30-Day Wish List. If you still want it a month later, buy it with a clear head.
