How to Play

- ✦ Fill every empty square with a digit from 1 to 9.
- ✦ Each row must contain every digit from 1 to 9 exactly once.
- ✦ Each column must contain every digit from 1 to 9 exactly once.
- ✦ Each of the nine 3×3 boxes must contain every digit from 1 to 9 exactly once.
- ✦ Every puzzle in this book has exactly one solution, checked by computer.

Tips

- ✦ Start with the rows, columns and boxes that are almost full.
- ✦ Pencil small candidate digits in the corners of a square.
- ✦ If a digit can go in only one square of a box, it belongs there.
- ✦ Puzzles get harder through the book: 25 easy, 25 medium, 25 hard, 25 expert.
